# GDPR compliant scientific research

Prepare

- Create all required documents to be able to get approval for your research

Get approval

- The approval is provided, the School or your staffmember is informed and will start project management.

- SAP ordernumber is provided in funded research

Do your GDPR registration

- Go to the online tool and register your processing activities to comply with article 30 GDPR

Start your research

- Do not start any processing before you are GDPR compliant

https://fhml-avg.maastrichtuniversity.nl

A GDPR registration tool is designed by FHML to make GDPR registration easy and help you to make your research article 30 compliant
